

Nammu

Arnaud Vincote

Hi, you can consider this my most important announcement after all these years. I have sought closeness to the divine. Many ways exist to do so. After long research, I have been pointed to one, if not our species' earliest mythology and civilization. The Sumerian civilization is the focus of many studies, and scholars assume this might be where one of the first writing systems was invented. Now, their Gods are often known in communities interested in ancient mythology. One of these divinity, however, remain shrouded in mystery. Nammu. Seen as a primordial Goddess who gave birth to the universe and the other Gods, she is significant in Sumerian mythology. Yet, very few pieces of information are available about Her. Several articles can be found on the internet, in scholarly resources, or in books. The surviving texts about Her are indeed rare. So, I did what I usually do. I have been granted access to this Goddess. More than an entire year of practice has passed. I have been learning from Her. Many rituals have been received and practiced, initiations have been attained, and among all this, I obtained from Her the title, the one which has the meaning that I will carry Her work. Loving, benevolent, but uncompromising are the three words that I would use to describe Her. Working with Her can bring anything you want. As a primordial Goddess, she encompasses all things. Spiritual attainment, however, is Her most profound work. I am now ready to disclose what I learned. Step by step. Be patient. It will take time. Today's endeavor has been consecrated by an evocation of the Goddess. A nine-step evocation that I repeated three times. The purpose of it was to help manifest everything positive for those who will call upon Her. Many practices, including this one evocation, will be revealed in due time. For now, I give you Her seal. You know me, it would have been too lightweight to be satisfied with no practical application. Allow me to give you a very short ritual to get Her blessings.

Nammu - Short Ritual

This ritual serves as a divine blessing empowerment from Nammu. You will gain anything the Goddess considers beneficial for you currently. It can range from material and mundane blessings of all sorts to magical empowerment and higher spiritual alignment. Asking for something specific is not the point of that ritual. Simply allow the Goddess to decide. You might feel strong sensations during the ritual or none at all. Don't concern yourself over such matters. Usually, people get an intense sense of connection to the Goddess by staring at the seal, however.

1. Say : "Nammu, Nammu, Nammu."
2. With the intent to deeply connect to Nammu, say, while glancing at the seal, even if you need to pause when reading this text: "Nammu, Rixoah, Rox, Narh. I call upon you. I deeply wish to know you and attain your blessings. Hear me, Nammu!"
3. Stare at the seal for as long as you wish. We recommend three whole minutes. During it, you might feel diverse sensations or none at all. Staring at the seal with intensity will enhance the connection.
4. Say, glancing at the seal, even if you need to pause when reading this text: "Nammu, I ask you with reverence to grant me blessings. Manifest anything that will benefit me for my higher good."
5. Stare one more minute at the seal, intending to receive the blessings. Anything can happen. Should you feel nothing, know that the blessings entered your life anyway. Should you feel uplifted, blissful, or any other positive feeling, thank the Goddess for such an opportunity.
6. Thank Nammu in your own words directed at the seal.
7. If so inclined, you may give an offering to Nammu. Jasmine incense is among the most preferred offering.

Arnaud Vincote - Bearer.
"Nammu is coming."
